

Bastion International Tournament

Official Guidelines V 1.1

(note: liable to change)

1. General Outline

1.1 Bastion International Tournament (BIT) is a Warhammer 40000 competitive tournament.

1.2 Our main goal is reuniting players from Romania and neighboring countries (Serbia, Hungary, Bulgaria).

1.3 Location: Timisoara, Romania, venue TBA (to be announced).

1.4 Date TBA (**most likely 21-23 October**)

1.5 List submitting period: 1 September – 1 October (**viable to change**)

1.6 Lists must be submitted to bogdantodo89@gmail.com. **Player order will be determined depending on list submitting date.** If using proxies, conversions, different bases, etc, (check section 4) you are to specify to the tournament organizers and include photos (low quality, phone photos are ok) in the list submitting email.

1.7 Participation tax: 30 RON = 6.72 EUR (we will invest this tax in prizes, administrative materials e.g: tables, venue rent). **We try to keep this as acceptable for the players as possible.***

*** Final participation tax fee is liable to change**

2. Tournament Setting

2.1 Number of participants will be capped at 16 + 4 reserves (from Timisoara). **Depending on selected venue and number of tables available, this can increase to 20, but this will be maximum.**

If **reserves** will only want to play as replacements for leaving participants, and will not play all 4 games, they are not liable to the tournament tax and cannot earn any prizes.

2.2 The tournament will have a **non-eliminating league format**.

2.3 Each player will play a total of **4 games**, after which the winners will be determined by total **game points** earned. If there is a draw at game points in the league, then winners will be determined by each subsequent Scoring Category, depending on it's weight on the total Game Scoring (detailed in Section 6.5)

2.4 The time limit for each game will be 4 hours, with a maximum of 30 minutes extra time. After extra time is over, game ends with current result. **Intentional slow play will be penalised (to be determined)**

2.5 There will be three prizes: First, Second, Third places. **Prizes TBA.**

2.6 This will be a competition. Expect participants to play to win, expect good lists, expect cheese of any flavor possible in 40k. **But we also expect a friendly and fair play attitude from participants.**

3. List Building

3.1 The edition will be Warhammer 40000 7'th edition.

3.2 Armies will have 2000 points.

3.3 Tables will be 72" x 48", 2 buildings, 4 canyons/rocks/los blocking terrain, 1 forest/swamp/additional terrain element.

3.4 Lists must be Battleforged, unbound lists are not allowed. For more details regarding what a Battleforged army is: <http://www.thediceabide.com/2014/08/what-exactly-is-a-battleforged-army/>

3.5 Players can use as many formations, detachments, allied detachments (**must not be same faction as primary, may not have warlord**) faction specific detachments as they want, as long as they abide to the 2000 points restriction and each detachment/formation restrictions.

3.6 We encourage people to use Battlescribe (updated to the latest version) in list building. It is not mandatory, however it's a helpful tool in list building and will make everyone's work easier when checking the lists and printing a small army booklet for each participant.

3.7 Forgeworld, Apocalypse, Imperial Armour or Horus Heresy units/formations/rules **cannot be used in the tournament.** However FW or Horus Heresy models can be used as stand-ins for other similar GW models (detailed at chapter 4).

3.8 For psychic heavy armies or armies with a lot of random special rules, we encourage writing the drawn psychic powers on small cards or using pre-defined cards to prevent confusing your opponent.

4. Models, Proxies, Bases

4.1 All armies must contain scale models. Proxy-ing with anything else is not allowed, **no soda bottles as carnifexes.**

4.2 Models must be at least 80% completely assembled. Can be unpainted, partially painted or fully painted.

4.2 Models from other manufacturers are allowed, as long as they are relatively similar in size (70%) and design (70%) to the desired model (percentage is empirical).

Below you can see examples of OK proxies:

4.3 Weapons of any kind can be proxied. However you must make it clear to the opponent what weapon is which. You must write it on a small card near the model to avoid confusion.

4.4 You cannot proxy 40k models that can be confused as other models, if they look significantly different (even if they are same faction). For example you cannot proxy a squad of Ork Boyz as a squad of Space Marines, or a squad of Tyranid Warriors as a squad of Daemon Flamers of Tzeentch.

4.5 You can proxy 40k models that are similar between themselves, for example a Soul Grinder as a Defiler (it has the same platform and similar look) or a Bloodthirster of Unfettered Fury as a Bloodthirster of Insensate Rage, or a squad painted as black templars can be proxied as dark angels, etc, **as long as the proxy-ed model is at least 70% similar in size and design.** However you must make it clear to the opponent what model is which. **You must write it on a small card near the model to avoid confusion.**

4.6 Conversions of any kind (using other parts, other figures, green stuff, white stuff, cement, etc) are allowed, as long as the converted model is at least 70% similar in size and design. However you must make it clear to the opponent what model is which. **You must write it on a small card near the model to avoid confusion.**

4.7 Completely scratch built models are ok only if they look at least 70% similar in size and in design to the original model. You might even get a few beers for being a good artist. Below is an example of an OK scratch built Tzeentch army:

4.8 Forgeworld or Horus Heresy models can be used as stand-ins for other similar GW models. For example a FW Bloodthirster/An'ggrath can be proxied as any regular GW Bloodthirster variant (see also pic at 4.9). **They can retain their FW original bases even if it's smaller/bigger in size than the current ones.**

4.9 Old and OOP Warhammer 40k models are OK. They can retain their original base, even if it's smaller/bigger in size than the current one. For example below:

4.10 You can use any alternative base type, as long as it's 80% similar in size to the originally model designated one (25mm, 32mm, 40mm, 60mm, 120mm, etc). Square and Hexagonal bases of similar sizes (80%) are OK:

4.11 **While the rules regarding proxies, models and bases are relatively permissive, please do not model, base or proxy for unfair advantages in comparison to your opponent. Be fair play!**

4.12 **If using proxies, you are to specify to the tournament organizers when submitting your lists (together with photos) to see if they follow proxy restrictions.**

6. Scoring and Objectives

(not final, still in playtesting phase)

6.1 **Scoring** will be done via **Game Points**, earned from Maelstrom Mission Points, Eternal War Mission Points, Kill Points and Secondary Objectives (Slay the Warlord, Linebreaker, First Blood, **Titan Slayer**).

6.2 **Titan Slayer** = 1 Gargantuan Creature, Flying Gargantuan Creature, Super Heavy Walker, Super Heavy Vehicle is destroyed. **Can be scored by both players.**

6.3 No Mysterious Objectives.

6.4 **Game Points** will be determined by scoring **Victory Points** in the 4 categories. Players cannot score more than the maximum game points for each category:

Scoring Category	Maximum points	Game Point value in VP
Maelstrom Mission Points	10	1 point = 2 Maelstrom Victory Points
Eternal War Mission Points	6	1 point = 2 Eternal War Victory Points
Kill Points	4	1 point = 3 KP differential vs opponent
Secondary Objectives	2	1 point = 1 secondary objective
Tabling Bonus*	+3	
Total Maximum Game Points	22	

*Players cannot score more than 22 Game Points. If with the tabling bonus the sum is over 22, excess points are discarded.

6.5 General Scoring Category Weight on Game (will determine winners in case of equal game points):

Scoring Category	Weight on Game
Maelstrom Mission Points	45,45%
Eternal War Mission Points	27,27%
Kill Points	18,18%
Secondary Objectives	9,09%

6.6 **Tabling will end the game but will have no effect on the tabled player's points.** A tabled opponent will maintain his existing victory points after game's end.

6.7 A player that wins a game by tabling receives **3 Game Points** bonus (but cannot cumulate more than 22 Game Points in total, excess are discarded). **Tabling needs to be a total annihilation of the opponent's army**, If there are still units in reserve/ongoing reserve at the end of turn 5, 6, 7 the victory is not considered tabling.

6.8 During turns 1 – 5, **players with units in reserves but with no units on the table at the end of a game turn will not lose the game. Opposing player proceeds to do his turn and score as normal.**

However at **end of game turn 5 or 6**, if a player does not have any more units on the table but still somehow has in reserves/ongoing reserves (due to a special rule or tactics), the player loses the game.

6.9 Players can **score a maximum of 3 tactical objectives per turn**. Remaining active tactical objectives can be scored next turn provided scoring conditions still exist.

6.10 Tactical Objectives with **Secure Objective 1, 2, 3, 4, 5, 6 can only be scored once per game**. If they are drawn again after scoring, redraw/reroll.

6.11 Players can discard 1 tactical objective/turn.

6.12 Faction Specific Objectives will be applied (**still in check phase**). Where there are no faction specific objectives, the corresponding generic objectives apply.

6.13 **D66** Tactical Objectives list. Some have been modified, tweaked or changed. All D3 have become 2 points instead.
